MEMORANDUM

To: The File

From: Stephen J. Roberson, Environmental Analyst, BWSC/SMP *SR*

Date: July 6, 1998

Subject: MIDDLETON - Former Adhesives Manufacturer, 40 School Street
Release Tracking No. 3-0168
Telephone Contact with Patricia Auterio

On July 6, 1998 the writer contacted Patricia Auterio by telephone to obtain an update on waste characterization and removal activities at the above-referenced site. Ms. Auterio informed the writer that she had received two written proposals from General Chemical Corporation on Friday, July 3, 1997 for removal and off-site disposal of a roll-off of waste materials and assorted drums of wastes that remain inside the on-site building.

Ms. Auterio informed the writer that she had decided to accept the two proposals, and that she hopes to schedule the work for some time during the following two weeks. Ms. Auterio promised to forward copies of the proposal to the writer by fax before the close of business on the day of the call.
